IOSH Working with Environmental Responsibilities
The Institution of Occupational Safety and Health is the UK's leading professional body

KeyOstas have developed a tailored course approved by IOSH to cover the syllabus subjects, which we believe enhances the learning experience. The presentation is supplemented with exercises and a delegate workbook to offer an improved learning experience.

Aims

This course is aimed at raising awareness of the way that your business activities could be damaging the environment, and giving you a start on the process of reducing that damage and possibly saving or earning yourself money as a result.

Objectives

At the end of the course each delegate should be able to:

Explain the effects of environmental legislation on your business
Analyse the impact of your business on the environment
Implement and monitor measures to improve your environmental performance
Examine the disposal of waste from your site and look for ways of saving or earning money
Apply the principles of an environmental management system such as BSEN ISO 14001
