

Safety Passport Alliance (SPA) Petrol Retail – Forecourt Contractors

Course aim

To build on the basic health and safety information of the Core Day programme by concentrating on risks specifically found with working on a Petrol Filling Station.

To allow delegates to recognise hazards, utilise control measures and safe working practices and maintain a safe working environment.

To obtain the full safety passport delegates must sit the SPA Core day, or hold a recognised exemption – please contact us for a list of current exemptions.

Learning outcomes

On completion of the course delegates will:

- Demonstrate their understanding of the subjects by successfully completing each module assessment paper
- Appreciate how they personally can influence good standards within health safety & environment
- Understand the value of risk assessment and have the knowledge to recognise when changes to a generic assessment is required
- Understand the common hazards associated with working in this sector.

MODULE 1 – Hazards on a Petrol Filling Station

- Types of hazards
- Fuel hazards
- Fuel properties
- DSEAR
- Restricted areas on a petrol forecourt
- Hazardous areas
- Zone classification
- Delivery hazards
- Vapour recovery
- Customer hazards
- Other hazards
- Contractor hazards

MODULE 2: Controlling Work on a Forecourt

- Communication
- Documentation
- Safety method statements
- Clearance certificates
- Permits to work
- Task classification

Programme may be subject to change without prior notification

Safety Passport

Successfully completing all assessment papers will result in a safety passport being issued. The passport is valid for 3 years and can be refreshed by attending a one day course anytime during the 6 months before the expiry date.
