

IOSH Working Safely

The Institution of Occupational Safety and Health is the UK's leading professional body

Course

To ensure that employees' actions contribute to health and safety in the workplace and that they understand their individual responsibilities.

Objectives

At the end of the one day course each delegate should be able to:

Understand the need to work safely, not to put others at risk
Define the terms hazard, risk and risk controls
Explain the importance of risk assessment
Appreciate the role of workplace precautions
Describe a health and safety management system
Identify lines of health and safety communication and safety signs and signals
Be aware of emergency and accident plans in their workplace
Know how and to whom to report accidents, incidents and near misses
Be aware of how industry affects the environment and list the ways in which individuals can minimise pollution and waste

Programme summary

Introducing working safely

Why it is important to work safely. Moral, legal and economic duties

Defining hazard and risk

What kind of things can cause you and others harm. What is risk? How can risks be controlled. How do you decide what to do about risks?

Identifying common hazards

What are the common hazards? What can be done about them?

Improving safety performance

How does an organisation improve safety? What are an individual's and organisation's responsibilities. How is safety measured?

Course Assessment

Written

10 Multiple answer questions.

Practical

3 Sets of pictures each with 3 different hazards.

Successful completion of both the written and practical papers will result in the issue of an IOSH Working Safely Certificate.

Fees

£165 (plus IOSH Fee) + VAT (non-residential). Please note IOSH fees may be subject to change.
