
NEBOSH Certificate in Fire Safety

Overview:

There are no entry requirements for this qualification.

It is important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus. NEBOSH recommends that learners undertaking this qualification should reach a minimum standard of English equivalent to an International English Language Testing System (IELTS) score of 6.0 or higher in IELTS tests.

The NEBOSH Certificate in Fire Safety is ideal for:

- Those responsible for fire safety in low to medium risk workplaces
- Health and Safety managers
- Facilities Managers
- Health and safety representatives within businesses.

This relevant and respected fire safety qualification will help you to:

- Gain a solid technical foundation to build on through practical application and experience
- Positively influence fire safety behaviours and improve fire safety culture
- Learn fire safety techniques that are based on global best practice
- Provide valuable in-house fire safety expertise for you workplace
- Advance your career by gaining specialist fire safety knowledge
- Avoid the damaging and sometimes catastrophic losses that result from fire.

This focused qualification helps you learn and develop fire safety skills which can be applied in workplaces anywhere in the world.

Length of course:

For this qualification you should plan your study around a minimum of 28 taught hours and approximately 20 hours of private study and background reading.

Further information on taught hours can be found in the syllabus located in the 'Resources' section below.

Assessments:

This qualification has a two-step assessment process which consists of:

A Scenario Based Assessment :

The aim of this assessment is for you to practically apply your knowledge and understanding gained from your studies of the syllabus. To do this, you will complete a Scenario Based Assessment (SBA) based on a fictional workplace setting.

A Practical Fire Risk Assessment - Unit FSC2:

The fire risk assessment has been developed around fire risk assessment standards such as the Home Office fire guidance and PAS79-1:2020.

The time needed to complete the fire risk assessment is not restricted. We do, however, recommend that you take around three hours to complete all four parts of the assessment. We feel that the three hours will allow you to show your understanding of the assessment requirements and complete a good quality fire risk assessment.

Both assessments will be marked by an external examiner appointed by NEBOSH. These examiners are chosen for their experience and expertise to ensure that learners are assessed by the very best from our industry.
