
NEBOSH - National General Certificate in Occupational Health and Safety

Course:

The National Examination Board in Occupational Safety and Health (NEBOSH) is the leading UK examination authority in this field. The popular Certificate is for those who have local responsibilities for health and safety and require an internationally recognised measure of capability in this field. If you are a health and safety adviser in a low risk environment or if you are just starting out on a career in safety the course will provide a solid foundation on which to build your knowledge.

The KeyOstas' teaching team is made up of full-time professionals who are committed to providing the high standards set by the Directors. They have a blend of experience and knowledge that sets them apart from most other training establishments. Their past is rooted in the world of industry, business and commerce.

At the end of the programme you should be able to:

- Identify and assess typical hazards in the workplace
- Recommend remedial action to control workplace hazards
- Investigate accidents and recommend preventative measures
- Interpret a range of important health and safety legislation
- Explain human and organizational influences on health and safety
- Describe potential ill-health effects arising from work environments
- Devise control strategies for substances hazardous to health

Programme Summary:

You will learn about effective policies, organising your business, investigating loss, risk assessment and risk management. It's a practical programme which illustrates common sense approaches to managing this vital function within a business. Find out how to deal with machinery safety, hazardous chemicals, noise, electricity, fire and radiation, and put effective safety management at your fingertips.

Assessment:

The aim of this assessment is for you to practically apply your knowledge and understanding gained from your studies of the NG syllabus. To do this, you will complete a Scenario Based Assessment (SBA) based on a fictional workplace setting and one practical workplace assessment.

When both NG1 and NG2 have been gained you will receive your NEBOSH National General Certificate and you have five years in which to complete the challenge.

We won't leave you stranded when it comes to the final test. Throughout the programme our trainers will help you to prepare for the examination by developing your question reading and answering technique. This attention to the finer detail of the examination ensures that most of our candidates pass first time.

KeyOstas Notes:

Everyone attending the programme gets a comprehensive reference manual covering all of the subjects included in the training programme. These notes are acclaimed by all who read them and prove to be a valuable source of guidance long after your training is complete.

* This course will require an element of private study.

Why choose KeyOstas?

We care about the products we deliver; we care about our delegates; and we care about our profession and its impact upon our clients' effectiveness.
